WARM UP

- Turn to page 24, answer questions 26-33.

MATH COURSE I

Add/Subtract Decimals

September 4, 2012

Mrs. Culverwell

VOCABULARY (REVIEW WORDS)

- <u>Sum</u>: add

- <u>Difference</u>: subtract

ADD AND SUBTRACT

Steps are the same:

1.Line up the decimal places:

$$1.334 \qquad\qquad 4.556$$
$$+3.09 \qquad\qquad - 2.09$$

*for subtraction make sure the largest number is on top

2. Add or subtract!

What if there isn't a number to subtract from?

- Example: 8.9 – 7.52 =

    8.9**0**   *add a zero
    -    7.52

 - Then regroup with the 9 to make the zero a 10!

 - What's the answer?

PRACTICE

- Turn to page 34. Answer questions 8-13 & 18-26 in your notebooks.

- **Round to the nearest whole number for each question first, then compute the actual answer!!!!!

Apply

- Answer questions 27 and 28 on page 34. (word problems)
