

# WARM UP

- Take turns reading your word problem to someone next to you and have them solve it.

# MATH COURSE I

Estimation  
Strategies(2)

September 12,  
2012

Mrs. Culverwell

# VOCABULARY(Review)

- Clustering: round the numbers to the same value  
Clustering Example
- Compatible Numbers: numbers that are close to the numbers in the problem that are easier to solve mentally  
Compatible Numbers Example
- Front End Estimation: round numbers to the leftmost place
- Rounding: replacing the numbers with similar numbers at the given place value

# APPLY (WORD PROBLEMS)

- Page 10-11 questions 28-38.
