MATH COURSE I

Divide Decimals

September 13, 2012

Mrs. Culverwell

DIVIDE CONTINUED

- a decimal divided by a decimal

Step 1: Set the problem up as long division.
 Refer to example on page 45.

Step 3: Change the dividend to a whole number. (you have to change both numbers)

Step 4: Divide

Step 5: Place the decimal point in the quotient above the decimal point in the dividend.

More examples: questions 14, 15, and 16 on page 46.

MORE PRACTICE

- Complete questions 13-21 on page 46.
